EXAM PREPARATION

BSGI:

- No specific preparation is necessary for the BSGI exam.

BREAST BIOPSY (if requested):

- Please stop taking aspirin, ibuprofen, Plavix, Coumadin, or any blood thinning medication 3 days prior to the procedure.
- Please bring a sports bra or other firm fitting bra with you for post biopsy comfort and support.
- No strenuous activity post biopsy for 24-48 hours. (No lifting on procedure side for 24-48 hours).
- Most Guided Biopsy patients receive a mild sedative. In these cases the patient will need a driver and will be instructed not to drive for 24 hours.
